

INTERNET AND ETHERNET SOLUTIONS

Crafted for Your Needs.

VIRTUAL PRIVATE LINE SERVICES (VPLS)

Increase productivity when you connect your main office with multiple locations in other metropolitan areas or markets. Our Virtual Private Line Service is a Layer 2 Ethernet that lets you view connectivity stats and control and prioritize network traffic.

WOLFE BUSINESS INTERNET

Fast symmetrical access speeds, security solutions, and manageable redundancy options. Keep your business reliably connected 24/7.

ETHERNET TRANSPORT SERVICE

Distance between your locations shouldn't slow you down. Connect point-to-point seamlessly, and securely share large amounts of data quickly.

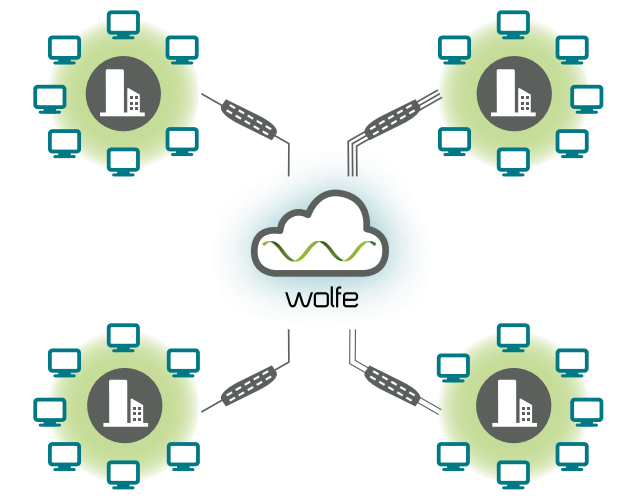

Our Network Solutions

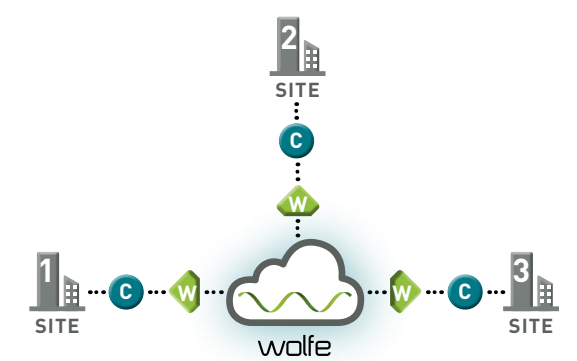

IP VPN

Depend on an IP network that offers increased performance and efficiency with fast and scalable bandwidth for multiple locations. With the any-to-any connectivity and class of service, your team gets "in-office" mission-critical accessibility, wherever they are.

METRO E

Securely share data and network services within all of your offices in a metropolitan area while paying only for the services you need.

Internet and Ethernet-over-fiber solutions tailored to your company's specific needs, delivered by a knowledgeable, service-oriented team, at prices that are good for your bottom line. Contact us for a free consultation and see why Wolfe customers everywhere are celebrating.

Customized for your business.

Scalable for your goals.

Tailored to your budget.

Perfected for success.

100% made-to-order solutions.

Whether you need Layer 2 Ethernet, Metro E, Ethernet Transport Service, or a Layer 3 IP service, we build seamless connectivity to meet your specific requirements and tastes. Cheers.

As you like it.

Grow and adapt your network with flexible data options. Wolfe is the opposite of one-size-fits-all.

Hyper-fast speeds from 10 Mbps to 100 Gbps.

Technology is changing and Wolfe has the robust bandwidth you need to support new applications, cloud services, data sharing, video conferencing, VOIP and more.

Adapt and thrive.

You're nimble. We are too. Just choose the bandwidth you need and raise a toast to your decision making prowess.

30-50% less than the competition.

Get more. Pay less. That's our business proposition in a nutshell. We design affordable, blazing-fast internet and network solutions for each customer we serve. Less waste. Lower cost. More happy customers.

Three cheers for saving money.

Cut your IT costs. Pay only for the services you need.

All your connectivity needs answered. Now.

Synchronous bandwidth and unlimited data. True customer service and support 24/7/365. Five classes of service with symmetrical connectivity on a Cisco powered network. Small, but mighty—Wolfe has it all.

Solutions that go down smooth.

Wolfe delivers faster speeds. More bandwidth. Big savings.
