

Connecting your business branches safely, efficiently and reliably.

Your business needs more than a fast way to transmit data. Your business requires a dedicated service connection that gives you the control you need to prioritize network traffic, protect your data from prying eyes and link your locations together – easily.

Link your business locations together with ease.

Wolfe's Virtual Private Line Service provides your company a dedicated, private and secure network that's 100% customized to your needs. Your company benefits from flexible, fully-scalable connectivity, with any-to-any configurations and five CoS. Plus, a dedicated team monitors your service 24/7, ensuring the utmost in reliability.

Additionally, a virtual private line service is especially beneficial for remote backup. Data can be moved quickly and cost efficiently with low latency times. If a disaster happens, your private line can help you get your business back up and running fast.

Get the security, speed and scalability your business requires – for a price that's much less than you'd expect.

Call Wolfe today at 1-800-WOLFENET or visit www.wolfe.net.

- **Easily prioritize your network traffic.**

Need to control and prioritize your network traffic? Wolfe's Virtual Private Line Service provides your business WAN CoS (wide area network class of service.) Five separate classes ensures that you'll enjoy the most efficient communications path without experiencing data loss.

- **Keep your data safe and secure.**

Wolfe's Virtual Private Line Service allows your company to bypass the public Internet. All traffic is masked with a unique customer ID for maximum security.

- **View the connectivity statistics you need, quickly.**

View your port statistics through your secure Web portal. You can view connectivity statistics for the previous day, seven and thirty day periods.

- **Link your locations with blazing fast bandwidth.**

Send files between your offices without experiencing any latency. Bandwidth speed and traffic is customized to your business' needs. With speeds from 10 Mb/s to 10 Gb/s, you'll be sending files faster than ever before.

- **Gold Standard Business Class support.**

Our company has immediate access to a dedicated team of technical and service specialists, 24/7, 365 days a year. If you need us, we're here.

Plus, Wolfe's Virtual Private Line Service is competitively priced 30-50% less than competitors.

Wolfe specializes in helping businesses connect and move their data around easier, faster and safer. Our network is native IPv6 capable and our network technology is powered by Cisco – so you have the peace of mind knowing that your network solution will be safe, scalable and reliable. Plus, our obsessive attention to customer service 24/7 will exceed your expectations – every time.

Let our experienced team develop a customized network solution for your business – at no extra charge to you.
